Metered Use Service Option B is a one-way, dial-in-dial-out multipoint service. Credit Card customers may originate calls from, and terminate calls to every city within the State of Missouri. Subscribers who originate calls from the locations listed in Section C-7, Table III can access MCI WORLDCOM by dialing a 7 digit access number (950-1022). Subscribers who originate calls from locations other than those listed in Section C-7, Table III can access MCI WORLDCOM via resold facilities by dialing a toll free 800 number. Two-tier pricing for both usage charges and surcharges is applicable and is based upon the two separate types of access. Option B may be provided as a Stand alone Service or as an Enhanced Service. If a customer subscribes solely to Option B he will be designated as a Standalone Credit Card Customer and will be assessed a one time \$10 initiation-of-service charge (Section C-3.0331). If a customer chooses Credit Card in conjunction with, or as an enhancement to, his or her existing MCI WORLDCOM Service (any MCI WORLDCOM Service other than Option B), he or she will be designated as an Enhanced Credit Card customer. All credit card calls are rounded to the next higher full minute.

.031 Monthly Recurring Charges

.0311 Interexchange Facilities Usage Charges: The per minute rates set forth in Section 3.0341 will apply to all Option B calls. The Tier 1 rates apply to all calls that originate from the cities set forth in Section C-7, Table III.

3. METERED USE SERVICE (Cont.).04 Option C (MCI WATS)

Option C involves the provision of interexchange communications channels. Option C is a one-way, multipoint service requiring the customer to originate calls via dedicated facilities between his premises and MCI terminal location and allowing the termination of calls via a combination of MCI-provided interexchange facilities and local business telephone lines, and the resold facilities of other carriers. All Option C calls are subject to a one minute average connect time (i.e. total monthly minutes of use divided by total monthly calls must equal at least one minute). All Option C calls are rounded to the next higher 6-second increment.

The Company does not invoice charges in fraction of a cent; the minimum charge for any charge element is \$.01.

N  
N.041 Monthly Recurring Charges

.0411 Interexchange Facilities Usage Charges: Option C is available on the basis of usage charges and is subject to a monthly Minimum Charge.

.04111 Minimum Charge: \$75 for all usage

.04112 Usage Charges: Usage Charges are determined by such variables as Rate Periods, Rate Schedules and Service Areas. The charges are billed according to the average monthly use for each rate period of each dedicated access line within a service group. <sup>1</sup>/(See definition of "Service Group" in Section A preceding.) The rate period is determined by the day and time at the Option C dedicated access line location.

<sup>1</sup>/The average monthly minutes of use for each rate period per access line will be deemed to be the same as the average monthly minutes of total traffic (including traffic to Canada) for each rate period. The resulting effective per minute rate will then be applied to the customers Tier 1 and Tier 2 usage, respectively.

Service Areas (S.A.'s) represent broad geographical areas which encompass specific locations to which the customer subscribes. The Service Areas are designated S.A. one through S.A. five and each higher Service Area includes service to all lower numbered Service Areas. See Section C-7, Table IV, Part C, for complete geographical coverage of Service Areas.

.041121 Rate Step Table:

The following Rate Step Table is used to determine the usage rates that apply to Option C. To use the table, locate the number in the column under the selected service area. This number is referred to as the Rate Step. Then locate the same Rate Step number on the Monthly Usage Table (Section C-3.041122). The rates listed on that line will apply to the service provided for that Originating State and Service Area.

.0412 Method of Determining Usage Charges

Based upon the hourly rates set forth in Section C-3.041122, MCI WATS usage charges are calculated as described below: 1/

- a) Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.
- b) Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated).
- c) Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.
- d) Determine the effective rate step for the desired service area from the appropriate originating state.
- e) Determine the effective Tier 1 hourly rate for each rate period by: 1) Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.

.08 Option G (Prism Plus)

Option G is a one-way, multipoint service allowing the customer to originate calls via customer-provided local business telephone lines, and allowing the termination of calls via a combination of MCI - provided interexchange facilities and local business telephone lines. All Prism Plus calls are subject to a 60-second minimum initial period and additional 60-second increments. A customer who subscribes to Option G but does not pay for usage when billed (as prescribed under Section B-7), will be terminated as a Prism Plus customer. If the party then continues to access the MCI network, it will be billed for its usage at the rates specified in Section C-3.02 and will be treated in all respects as a customer of that service.

The Company does not invoice charges in fractions of a cent; the minimum charge for any charge element is \$.01.

By subscribing to this service, Customer understands that use of this service is restricted in the following manner: Customer may not resell the services in any manner, including but not limited to as a wholesaler or aggregator.

SECTION C - SERVICE DESCRIPTIONS AND RATES (Cont.)3. METERED USE SERVICE (Cont.).09 Option H (MCI 800 Service)

MCI 800 Service is an inward WATS service which permits intrastate calls to a customer's station in one location from stations in diverse geographical service areas, and in which the MCI 800 customer is billed for the calls rather than the call originators. 800 Service has one pricing Range for each terminating area code, with total intrastate coverage on every line. Range designation, determined by originating and terminating area code, is shown in Section C-7, Table IV, Part D.

The Company does not invoice charges in fraction of a cent; the minimum charge for any charge element is \$.01.

N  
N

MCI may require that a customer provide calling pattern information necessary for MCI to evaluate whether it anticipates network blockage, and MCI reserves the right to suspend installation of service until adequate facilities are available to meet such traffic. All Option H calls will be subject to an 18-second minimum initial period and additional 6-second increments. All Option H calls are rounded to the next higher 6-second increment. A call begins when call termination is received by or passes through customer premises equipment. It is the customer's responsibility to pass appropriate answer supervision back to the MCI point of connection. For rules regarding the reservation of MCI 800 Service telephone numbers, refer to Section B-16.

Unless otherwise indicated herein, the terms "MCI 800 Service," "888 Service," and/or "Toll Free Service"; and the terms "800 number," "888 number," and/or "Toll Free number" can be used interchangeably when used throughout this tariff.

3. METERED USE SERVICE (Cont.).09 Option H (MCI 800 Service) (Cont.).093 Volume Discounts

Incremental Volume Discounts, as set forth below, are available to those MCI 800 Service customers who have established accounts with MCI WORLDCOM and whose total monthly charge for usage under Section C-3.09211 through Sections C-3.09213 preceding equals or exceeds certain levels for a particular terminating location (MCI WORLDCOM terminal). The discounts will be applied to the customer's monthly invoice and will be based on the total monthly usage in all three rate periods and for all service groups of the same termination type served off a particular MCI WORLDCOM terminal. The discount is then applied to each of the terminating service groups based on their percentage of the total usage.

.0931 Switched WATS Termination

0% on monthly usage between \$0 and \$50.00  
5% on monthly usage between \$50.01 and \$350.00, plus

SECTION C - SERVICE DESCRIPTIONS AND RATES (Cont.)3. METERED USE SERVICE (Cont.).10 Option I (Vnet Service)

Vnet Service is a customized virtual network telecommunications service. It provides a unified service for multi-location companies, providing both communications and management features. Vnet is suitable for intrastate calls between company locations as well as all calls within the entire state of Missouri.

Subscribers to Vnet take a Basic Feature Package which includes the availability of Dedicated and Shared Access and Termination; usage charges with associated Volume Discounts; Universal Range Privilege; a 7-digit customer-defined private dialing plan, 10-digit Exclusion, 10-Digit Private Dialing Plan, Accounting Codes and a consolidated invoice for all Vnet calls from all locations. They may also subscribe to optional features, including Customer Information Management (CIM) Access, Direct Termination Overflow, ID Codes, Call Detail Tapes, Customized Range Privileges and Network Information Management System (NIMS) Access.

The Company does not invoice charges in fractions of a cent; the minimum charge for any charge element is \$.01.

Universal Range Privilege - A customer can specify the type of Vnet calls allowable for users on each Dedicated Access Line group, for each Vnet Card authorization code and for each Dial "1" ANI (originating telephone number) band for each ID code (see Section C-3.1055 regarding ID codes). The range privileges are defined as follows:

0	=	no calls allowed
1	=	on Vnet numbers (7- and 10- digit private dialing plan numbers)
2	=	Range 1 plus 10-digit off-Vnet numbers

Accounting Codes - A customer can specify that Accounting Codes are to be dialed from specific dedicated access line groups or from Dial "1" telephone numbers (ANIs). For Dial "1" access, the code must be two digits and cannot be used in combination with an ID Code (see Section C-3.1055). If the ANI is equipped for the code, the code will be dialed on all Vnet calls originated at that ANI. For Dedicated Access, the code may be dialed in combination with an ID Code and both the ID and Accounting Code may be of customer-specific length so long as the total number of digits of both does not exceed seven. If the dedicated access line group is equipped for the code(s), the customer can select, on that line group, that either all originations must dial the code(s), or that only 10-digit originations must dial the code(s). .105 Optional Features (Cont.)

- .1059 Vnet Market Area Calling: 1/ Offers intralata, outbound, voice only calling within the customer's Market Area for calls using dedicated access-switched termination and dedicated access-dedicated termination. This call type is not available to customer locations that fall within the local service area as defined in MCIMetro Local Exchange Tariffs.

The rates specified in section C-3.1031 (Dedicated-Switched and Dedicated-Dedicated) will apply to all Market Area calls originating and terminating within the customer's Market Area. A customer's Market Area is defined as the dominant Local Exchange Carrier's (LEC) local calling area specified in the LEC's Local Exchange Tariff for the customer's exchange area for the specific location implementing Market Area Calling.

In addition, Vnet discounts as outlined in MCI WORLDCOM's FCC Tariff No. 1, Section C-3.097 will apply. If a customer subscribes to a Special Customer Arrangement with intrastate discounts or rates then those rates and discounts will apply to Market Area Calling. SCA Types 1 and 4 are not eligible for Market Area Calling.

.1059 Vnet Market Area Calling (Cont.)

Customers must have Branch Exchange (PBX) or Hybrid Key System and originate Market Area Calling traffic via dedicated access facilities to use this feature.

The Market Area Calling feature cannot be used to originate 911, Directory Assistance, operator service calls, toll free or to terminate inbound local calls.

Customers must maintain LEC-provided lines or trunks to originate and terminate these call types. This feature is subject to the Company's existing capacity and network availability.

.106 Network Savings Plan

The Network Savings Plan offers discounts to customers based on Transport volume (minutes) and on whether customers commit to taking one to three years of service, or make no such commitment. The percentage discount under each option is determined based on the Vnet customer's entire Transport volume during the month. The discounts are applied against call type specific usage charges and DTO charges. The resultant amount is subtracted, before taxes, from the tariff charges. Customer's selecting these plans commit to the minimums specified below.

The Network Savings Plan commences either in the month the order is received, if the order is placed before the 15th day of the month, or, if the order is placed after the 15th day of the month, the month immediately following the order.

SECTION C - SERVICE DESCRIPTIONS AND RATES (Cont.)3. METERED USE SERVICE (Cont.).12 Option K (MCI Preferred) (Cont.)

Option K is a one-way, outbound, multipoint service for single or multi-location customers using Dial One or Calling Card origination. In connection with Option K using Dial One Access, Service Type 1 only as described below, the customer can obtain an inbound 800 termination option. Multiple outbound calling locations will be billed via a single invoice. If applicable, upon enrollment, the customer must designate each originating Dial One telephone number as either Service Type 1 or Service Type 2 as described below. Outbound Option K calls may originate from all locations within Missouri. Outbound calls are dialed without the assistance of an MCI Operator, except for Calling Card calls originating from a rotary phone, and do not include calls as specified in Section C-3.026. Inbound Option K calls are made through a designated 800 number, and the Option K customer is billed rather than the call originators. All Option K calls are subject to a 60-second minimum initial period with an additional 60-second increments.

By subscribing to this service, Customer understands that use of this service is restricted in the following manner: Customer may not resell the services in any manner, including but not limited to as a wholesaler or aggregator.

.121 Access Methods

.1211 Dial One Access - Dial One Access can be used for Option K alone or in conjunction with Calling Card Access and/or 800 Access. There are two types of Dial One Service: Service Type 1 and Service Type 2. The customer can pre-subscribe up to fifty (50) Service Type 1 locations and up to five (5) Service Type 2 locations for each Option K account. A Service Type 1 location is defined as all lines associated with a single billing telephone number (BTN) as provided by the local exchange carrier. At each Service Type 2 location, there can be a maximum of two (2) originating telephone numbers. However, there is no limit to the number of originating telephone numbers at a Service Type 1 location.

.1212 Calling Card Access - Calling Card Access, available for origination from touch-tone or rotary phones by calling an MCI-assigned "800" number, can be used for Option K alone or in conjunction with Dial One and 800 Access. A customer may request up to fifty (50) calling card authorization codes per account. A \$1.20 per call surcharge will apply to each Option K Calling Card call. I

.1213 MCI Preferred 800 - MCI Preferred 800 can be used as part of Option K service alone and/or in conjunction with Dial One access or calling card access. This type of access is accomplished by 800 termination in which MCI WORLDCOM provides a unique 800 number with Business Line Termination Access to the Option K customer so that the customer can receive incoming calls. The Option K customer is billed for the calls rather than the call originators. A customer may order multiple 800 numbers which can terminate to the same or different telephone number(s). Option K MCI Preferred 800 access customers are subject to the rules and regulations governing MCI 800 Service as set forth in this tariff.

.1214 MCI Private 800 - For each MCI Preferred Private 800 number, MCI WORLDCOM will provide an 800 number, and a 4-digit security code with which the customer can receive incoming domestic calls. The service as offered in this tariff is subject to the customer subscribing to MCI Private 800 as provided in MCI WORLDCOM's F.C.C. Tariff No. 1 and is subject to the provisions set forth therein.

3. METERED USE SERVICE (Cont.).13 Option L (MCI 900 Service)

MCI 900 Service is an inbound, long distance, voice-grade telecommunications service that permits callers to place long distance calls to the Customer's stations in one location from stations in diverse geographical service areas. MCI 900 Service Customers may provide live or pre-recorded messages to callers using Customer's own equipment. It is the customer's responsibility to provide answer supervision back to the MCI WORLDCOM point of connection even when the MCI 900 Service is connected to switching equipment or a Customer-provided communications system. In such cases, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon the delivery of the call to the customer's switching equipment or communications system and ends upon termination of the call. Intrastate service is an add-on to the interstate 900 Service provided in MCI WORLDCOM's F.C.C. Tariff No. 1.

.21 Option T (500 Personal Number Service)

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the state of Missouri to a station at one location, or to a set of stations at more than one location based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate MCI WORLDCOM as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that MCI WORLDCOM is the provider of the service.

Users of 500 Personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by MCI WORLDCOM. Terms and conditions will be applied in accordance with MCI WORLDCOM's F.C.C. Tariff No. 1.

.211 Basic Service Package

The Basic Service Package, which all 500 Personal Number Service Subscribers receive, includes the following:

- Friends & Family 500 Number: Each Subscriber is assigned a 500 number.
- Passcode: Each 500 Personal Number Service number is assigned a 6-digit passcode which can be used by the Subscriber to manage service features.
- Multiple Numbers 1/: Permits Subscribers to pre-establish in priority up to three telephone numbers in the state of Missouri for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy-signal or answering machine is detected or if the call does not complete after four rings.

- Final Message 1/: If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.
- Alternate Number 1/: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.
- Call Screening: Call Screening allows a Subscriber to screen calls by prompting the Calling Party to state his or her name, and allowing the Subscriber to accept or redirect the call. This feature can be activated and deactivated by the Subscriber.

The Subscriber will be charged \$1.00 per month per 500 Personal Number Service number for the Basic Service Package.<sup>[2]</sup> The Calling Party is not subject to any monthly recurring charges but will be obligated to pay usage charges associated with calls he or she places.

3. METERED USE SERVICE (Cont.).22 Option U (hospitalityMCI) 1/

Option U is an outbound, customized telecommunications service which may include an inbound service option using a Business Line, WATS Access Line, or Dedicated Access Line Termination. Option U provides service for single and multi-location customers using switched and/or dedicated access origination and switched and/or dedicated termination. Option U may be used for long distance calls between customer locations and to other locations within the state. Upon enrollment a customer must commit to a term plan option and is bound by all terms and conditions as described in MCI WORLDCOM's F.C.C. Tariff No. 1. All intrastate Option U calls are subject to an 18-second minimum initial period and are rounded to the next higher six second increment. If the computed charge for a call includes a fraction of a cent, the fraction is rounded to the nearest whole cent. When a hospitalityMCI call is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the call occurring during that rate period. The rate for inbound calls is the rate for the time of day at the terminating location. To be eligible for service, a customer must subscribe to outbound service at all of its locations.

In addition to the usage charges set forth below, charges for terminating access lines will be billed in accordance with MCI WORLDCOM's F.C.C. Tariff No. 1.

The rules and regulations governing the provision of service for inbound calls are identical to those in Option H (MCI 800 Service), except where otherwise noted.
